

Listing of the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

1. **(Currently amended)** A method comprising orienting in the machine direction (MD) a polyethylene blown film to a draw-down ratio greater than 10:1 to produce an MD oriented film having a 1% secant MD modulus of 1,000,000 psi or greater; wherein the blown film is made from a polyethylene resin which has a density within the range of 0.950 to 0.970 g/cc and a number-average molecular weight Mn within the range of 11,000 to 20,000.
2. **(Original)** The method of claim 1 wherein the MD oriented film has a 1% secant transverse-direction (TD) modulus of 300,000 psi or greater.
3. **(Canceled).**
4. **(Original)** The method of claim 1 wherein the blown film is made from a polyethylene resin which has a density within the range of 0.955 to 0.965 g/cc.
5. **(Original)** The method of claim 1 wherein the blown film is made from a polyethylene resin which has a density within the range of 0.958 to 0.962 g/cc.
6. **(Original)** The method of claim 1 wherein the blown film is made from a polyethylene resin which has a weight average molecular weight (Mw) within the range of 130,000 to 1,000,000.
7. **(Original)** The method of claim 6 wherein the Mw is within the range of 150,000 to 500,000.
8. **(Original)** The method of claim 6 wherein the Mw is within the range of 155,000 to 300,000.
9. **(Original)** The method of claim 6 wherein the Mw is within the range of 155,000 to 250,000.
10. **(Canceled).**
11. **(Canceled).**
12. **(Canceled).**
13. **(Canceled).**
14. **(Original)** The method of claim 1 wherein the draw-down ratio is 11:1 or greater.

15. **(Original)** The method of claim 1 wherein the oriented film having a 1% secant MD modulus of 1,100,000 psi or greater
16. **(Withdrawn)** An MD oriented polyethylene film made by the method of claim 1.
17. **(Withdrawn)** An MD oriented polyethylene film made by the method of claim 5.
18. **(Withdrawn)** An MD oriented polyethylene film made by the method of claim 9.
19. **(Withdrawn)** An MD oriented polyethylene film made by the method of claim 13.
